

Robotics Club

The purpose of the club is to offer students an opportunity to have fun and learn some very basic programming and robotics. During club meetings, the students will learn to use the components of Lego EV3 kits to build robots and learn to program their robots using the programming software. After they have mastered basic programming, club meetings will involve the students in programming their robots to accomplish tasks and solve challenges. Problem solving and logical thinking skills will be emphasized. Students will be working in pairs or small teams. Permission slips can be dropped off in Miss LoBue's room 207.

Club Meeting Dates Held in Room 207	
First Half (Building)	
September 9th	
September 14th	
Second Half (Programming)	
September 21st	
September 28th	
September 30th	
October 5th	
October 12th	
October 14th	

Student's Name _____ has my permission to join Jane Addams LEGO Robotics Club. I understand that this club will meet after school and that my child will need to have a ride arranged by 4:00 PM. I understand that continued membership in the LEGO Robotics Club is contingent on my child exhibiting appropriate behavior and utilizing their time in a constructive manner.
